Note: This 400+ page volume includes **numerous sample questions and past CAS questions** and solutions associated with the following articles that are no longer on the syllabus but were used extensively by Friedland’s in authoring of her paper. **"Modified past CAS questions" are past CAS questions that were modified to test specifically the content found in the Friedland article.**

Many past CAS questions associated with the following articles are integral to preparing for future CAS questions arising from the Friedland text.

- Adler, M.; and Kline, C.D. Jr., "Evaluating Bodily Injury Liabilities Using a Claims Closure Model"
- Berquist, J.R.; and Sherman, R.E., "Loss Reserve Adequacy Testing: A Comprehensive, Systematic Approach"
- Bornhuetter, R.L.; and Ferguson, R.E., "The Actuary and IBNR"
- Fisher, W.H.; and Lange, J.T., "Loss Reserve Testing: A Report Year Approach"
- Fisher, W.H.; and Lester, E.P., "Loss Reserve Testing in a Changing Environment"
- Wiser, R.F.; Cockley, J.E; and Gardner A., "Loss Reserving," Foundations of CAS (Fourth Edition)
